DAY: Sunday

Lab Report 2 – Running Default Flutter Counter Application

Objective

The objective of this lab was to create and run the default Flutter counter application to understand the basic structure and working of a Flutter project.

Introduction

After setting up the development environment in Lab 1, the next step was to create and execute a simple Flutter application.

Flutter provides a default counter app template that helps beginners understand:

- Project structure
- Widgets
- State management (basic)
- Hot reload feature
